

# taking our local listings

## GLOBAL

As the coveted California lifestyle becomes increasingly appealing to our continental counterparts, Surterre Properties® is responding to the demand by further extending our global marketing efforts through our International Internet Marketing program.

In addition to partnering with LuxuryRealEstate.com - which has allowed us to significantly broaden our audience of affluent homebuyers - Surterre is expanding our international network to ensure that our listings are accessible to even more luxury property seekers across the globe.

With Surterre's International Internet Marketing program, we are able to market our listings on **leading property portals in over 17 countries dispersed across six continents.**

We have invested in Search Engine Marketing (SEM) on China's leading search engine, Baidu, in addition to syndicating our listings to Rightmove.co.uk - Britain's top real estate search website. Our listings also appear on portals in India, Germany, Malaysia, Singapore, Hong Kong, Greece, Russia and South Africa.
